COOKIE POLICY

This cookie policy ("**Cookie Policy**") is intended to inform you how we use "cookies" and similar technologies on our website at www.noctitech.com or through our emails and to assist you in making informed decisions when using our services. Please take a moment to read and understand this Cookie Policy. This Cookie Policy should also be read in conjunction with our privacy policy (also available on our website).

What Are Cookies?

Cookies and similar technologies (such as scripts), ("**Cookies**"), are very small text documents or pieces of code, which often include an anonymous unique identifier. When you visit a website or use a mobile application, a computer asks your computer or mobile device for permission to store this file on your computer or mobile device and access information from it. Information gathered through cookies and similar technologies may include the date and time of visits and how you are using the particular website or mobile application.

We may use first and third party cookies in connection with our website. First party cookies are cookies placed by us to collect information about you. However, certain cookies available through our website may be placed by third party website operators. This means that the information about you collected by those third party cookies will be shared with the relevant third party. Please refer to the relevant third party website operator's privacy notice for more information about how they may use such information.

For more details on cookies and similar technologies, please visit All About Cookies. For the purposes of the remaining sections of this Cookie Policy, we will refer to all technologies using the above features as "cookies".

How Long Do Cookies Last?

All cookies have expiration dates that determine how long they stay in your browser:

Session Cookies – these are temporary cookies that expire (and are automatically erased) whenever you close your browser.

Persistent Cookies – these usually have an expiration date and so stay in your browser until they expire, or until you manually delete them.

Cookies Used

We may use the following types of cookies across our website:

Essential Cookies – Essential cookies are those cookies which are essential for the operation of a website. Essential cookies include cookies such as login cookies and shopping cart cookies.

Functionality Cookies – These cookies recognise you when you return to a website, they remember your preferences and they provide enhanced, more personalised features.

Analytics/Performance Cookies – Analytics cookies, along with other information, allow websites to calculate the aggregate number of people using a website and which features of a website are most popular. This information is generally used to improve the website.

Targeting Cookies – Targeting cookies (also known as advertising cookies) deliver adverts that are more relevant to you and your interests. They are also used to limit the number of times you see an advertisement on a website and help measure the effectiveness of advertising campaigns. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers.

Some of the purposes for which Cookies are used may also require your consent. Whenever consent is given, it can be freely withdrawn at any time following the instructions provided in this document.

Refusing, Blocking and Deleting Cookies

You can block the use of cookies altogether by activating the relevant settings in your browser. For more information on cookie management and blocking or deleting cookies for a wide variety of browsers, visit All About Cookies.

Please be aware that in order to use some parts of our website you will need to allow certain essential or functional cookies. If you subsequently block or delete those cookies, some aspects of our website may not work properly and you may not be able to access all or part of our website.
